Proceeds from **Pouring from the Heart** assist the UMKC School of Dentistry in providing free, comprehensive dental care to our community. A significant portion of the Kansas City population desperately needs dental care. In 2018 alone, 3,350 patients were unable to afford or complete payments on their treatments. The funds raised through **Pouring from the Heart** can drastically lower this number AND provide patients experiences we take for granted every day, including the ability to eat solid foods, enjoy pain-free oral health and simply have the confidence to smile. Not only does this assistance directly help the community surrounding the School, but it powerfully affects our students: providing them the opportunity to experience making an impact on a patient's life, helping them find cases to meet their clinical requirements and teaching them the importance of giving to others. Your attendance helps us provide worthy patients the life-changing care they need.
