

Advanced Education Programs: Application Information & Deadlines

All applicants to the advanced education certificate programs (Advanced Education in General Dentistry (AEGD), Endodontics, Oral & Maxillofacial Surgery, Orthodontics & Dentofacial Orthopedics, and Periodontics) require the Postdoctoral Application Support Services (PASS) application available at www.adea.org. All sections of the PASS application should be completed fully.

Official dental school transcripts should be submitted directly to PASS. A minimum dental school 3.0 GPA is required for applicants to all advanced education programs. In addition, applicants should rank in the top 75% of their graduating class, except for Orthodontics applicants who must rank in the top 50% of their graduating class. Official National Dental Board Exam scores should be submitted directly to PASS if available. Scores will not be required for application review.

Applicants applying to the Orthodontics program are required to take the GRE. Official GRE scores should be submitted directly to UMKC (GRE code is 6872.) Oral and Maxillofacial Surgery applicants are required to complete the CBSE exam. The Advanced Dental Admission Test (ADAT) is preferred but not required for applicants to AEGD, Endodontics and the Periodontics Programs. Official ADAT results will be released to ADEA PASS within three to four weeks of your test date.

Be aware that approximately three weeks are required by the service to process PASS applications and deliver them to the designated programs. The length of this processing period should be considered by the candidate in order to meet relevant application deadlines. **An applicant copy of the PASS application should not be sent to UMKC.**

Applicants applying to any of the advanced education programs must be a U.S. citizen or permanent resident. Applicants must also submit evidence of graduation from a school of dentistry accredited by the American Dental Association or the Canadian Dental Association.

Residents accepted into the Endodontics, Orthodontics, and Periodontics programs directly after graduating from dental school must successfully pass a U.S. regional or equivalent Canadian clinical licensure exam prior to or no later than the end of the first year of residency (Spring semester). Applicants to all programs including AEGD, who have been out of dental school for a year or more, must successfully pass a clinical licensure exam before they start a UMKC residency. In addition, all Periodontics residents must be eligible for a Missouri Dental License by the end of their first year. Residents accepted into the OMS program must complete a U.S. regional or equivalent Canadian clinical licensure exam and obtain a Missouri Dental License prior to starting the residency.

All applicants are required to submit the **Institutional Evaluation AND Professional Evaluation Form (PEF)** as part of their completed PASS application. A minimum of three professional evaluators (dental faculty) are required to submit evaluations for the PEF. Additional letters of recommendation should not be sent to UMKC.

An online UMKC application and application fee are required of all applicants. Upon receipt of your PASS materials, you will be emailed a link to the online general UMKC application.

Additional information, such as proof of US Citizenship or Permanent Residency, must be submitted directly to the UMKC School of Dentistry via the UMKC application site. Documentation would include US passport or Permanent Resident Card. This documentation upload is completed after the PASS application has been received by UMKC.

Additional resumes, CVs, personal photos, or information not received as part of the PASS application will be destroyed upon receipt.

The advanced education certificate programs in Periodontics, Oral & Maxillofacial Surgery or Orthodontics participate in **the National Matching Services (MATCH)** process. Candidates to these programs must also register for this service within the ADEA PASS applicant portal (www.adea.org .) There are two phases of the MATCH process, each with its deadline date for receipt of Rank Order List forms from applicants. The Phase I deadline (typically toward the end of November each year) is for applicants to the Periodontics or Orthodontics program. The Phase II deadline (typically in the middle of January annually) is for those applying for admission to the Oral & Maxillofacial Surgery program.

General admissions questions concerning advanced education programs should be directed to the Office of Research & Graduate Programs at (816) 235-6342. However, specific questions regarding any advanced education program should be directed to the pertinent program director. Program directors along with their telephone numbers are identified on each program's catalog page and/or website.

Application Deadlines

Application deadline dates for advanced education dental certificate programs are as follows:

Advanced Education in General Dentistry	December 1
Endodontics	July 1
Oral and Maxillofacial Surgery	October 15
Orthodontics	September 1
Periodontics	August 15

This deadline date for receipt of applications at the school is one year before the anticipated enrollment in the program.
